**Martial Law.** 1 2

The Jacksonville *Republican*, of the 18th inst., in an editorial, says:—

It has been confidently asserted by members of the Republican party, that this country will put under martial law before the election, and that we will be guilty of our rights."

While we do not wish to see our neighbors of Calhoun county visited by martial law, believing, as we do, that there is no occasion for such a measure, we do not object, yet if the clamor for the torture and rack that, in a continuous howl, comes up from the Radical kennel, cannot be appeased in any other way, we will have no objection to that, provided it be determined to meet the outrageous and unbecoming demands of a higher degree of patriotism than the patriots of that county. Last

the altar of military despotism; their can-  
did and no noble sacrifice; and, when placed  
in the shambles, will prove a peace  
offering to the nation. The countryman  
to whom the purification of North  
Carolina will pale into nothingness. Let  
us have a Southern emigrant, a cavalier  
man, who will place his hands on the  
altar of freedom, and his blood will be  
an offering deeply to be regretted;  
but it will place beyond peradventure  
the Southern emigrant from North  
Carolina. And if our adviser, Mr.  
Crittenden, would suggest to the "mes-  
sengers," when they march into the coun-  
try, "keep your hands off the people,"

**One Hundred Emigrants  
Burned to Death.**

A very sad occurrence is reported at  
de Janeiro, namely, the burning of  
one hundred emigrants, and the consequent  
destruction of our emigration company  
board. The details of this terrible catas-  
trophe are given by the Captain of the

repaired to the Adelle Louise. The estimated, 123 in number, perished.<sup>16</sup> The chimney of conflagration broke out, and the flames spread rapidly. The crowd poured to a large number of chairs that formed part of the cargo. The passengers, who were crowded into the gallery and in the absence of discipline, tried to jump to escape the flames or to save the things of their own.

**A Warning.**

Every true Democrat and Alabamian should read the following study warning throughout the *Free-Press News*. The study that we have urged upon the people of Alabama is a warning and a challenge to the necessity of a prompt and thorough conservative party. "The State Executive Committee of the Alabama Democratic Party is open to the members of the various farm clubs, and thus be in readiness to maintain the canvass. By organization,

...and other existing political machinery, which makes the party a unit and enables it to act for all emergencies. Unless a party is so formed, and auxiliaries established in each district, it is impossible to get the masses of voters to the polls. On that election, day there will be no voters at the boxes scores of voters will remain at home, and our aggregate vote will sink to insignificance. On the same subject the Evergreen observer says:

Let the different clubs keep themselves well together, and ascertain the names, addresses and political status of every voter in the district. Then, on election day, make great care in making them every one aware that every man's position can be ascertained by a reference to it. Still hunt over every square inch of the district, and make every man feel that he must come out and vote, and encourage him to do so. If the district is big, without delay, be energetic, but kind, and make every man see that it is in his own interest to go to the polls. Let every man see, to the end that every man can see, that he has a right

they selected him for the highest office in their gift. As the advocate so unequivocally endorsed him in a record, we hope to hear no more from it in dissemination. What it calls "Broken Promises" must stay.

increased, and its softness and beauty multi-  
plied.  
The Louisiana Greole Hair Restorer  
keeps the head clean, cool and healthy, re-  
moves all dandruff, prevents irritation and itch-  
ing and is an excellent remedy for nervous  
and other forms of headache.  
The Louisiana Greole Hair Restorer  
is not a dye, but restores gray hair to its  
original color by supplying the capillary  
tubes with natural substance which may not  
be assimilated from either age or decay.  
All individuals whose hair is composed of  
gray matter, devoid of vitality and color,  
and who are unable to afford of themselves  
a dressing, but on the contrary make the  
hair brittle and wiry.  
The Louisiana Greole Hair Restorer  
not only actually restores the hair and restor-  
es the natural color by natural means, but  
it imparts to it a luxuriant beauty which it  
can obtain by no other means.  
The Louisiana Greole Hair Restorer  
in addition to its many useful qualities is  
decently perfumed and is entirely free from  
cosmetics and coloring matter. The very first  
time it is used, the hair is not spoiled or even  
stained by its use. It contains no poison to kill  
the hair, but under its continued use, im-  
provement is steadily manifested and it re-  
sults in giving the best satisfaction.

**LINIMENT**  
WILL CURE PAINS AND ACHES IN FIVE  
MINUTES.  
Prepared from rare Essential Oils, Extract  
of Camphor, Extract of Arnica, Chlorine  
and Magnetic Fluid, chemically combined.  
The Magic Arnica Liniment  
is one of the most powerfully penetrating  
Pain Killers known. It is a magical grease like  
many of the so-called liniments sold, but a  
clear, transparent, easily colored fluid,  
which when applied, promptly penetrates  
through the skin and reaches the very source  
of the pain, sitting at the root of the disease and  
instantly relieving all pain. In cases of Pa-  
ralysis, Numbness, Itches, Cramps, swellings,  
Inflammation, all kinds of diseases due to  
be reached by external treatment, this lin-  
iment will be found efficacious. In Rheu-  
matism it acts promptly, killing the pain in  
a few two applications, and when used in con-  
junction with Mansfield & Higbee's  
Great Lateral Remedy, the RHEU-  
MATIC COMPOUND, we have  
never known it to fail to effect  
a cure.  
Horse and Cattle Liniment  
It is unsurpassed, curing where other lin-  
iments fail. A striking evidence of this is  
unparalleled success when used in the  
treatment of Charbon or Erysipelas in  
Horses or Mules—a disease which at one time  
threatened to destroy all the stock in this  
Mississippi Valley.  
The Magic Arnica Liniment  
was the only remedy that was found to cure  
in all cases.

What Route R. F. H.  
JURINE WATTS, WHEELS, ENGINES  
In inviting attention to the card of Messrs. Peck & Hix, Engineers and Founders, of Baltimore, notice is especially called to their celebrated "L. M. American Double Tar Line Water Wheel," which has established its superiority in a national reputation. Some idea may be had of the value of this Water Wheel from the fact that there are now about five thousand in operation.  
Messrs. Peck & Hix, besides thorough Engineers and Founders, have an unsurpassed facility for supplying everything in their line, including Steam Engines, Flour Mills, Saw Mills, Machinery, Shadings, Pumps, &c., &c.  
Sept. 1870-ly.  
The Don'tons all write R. F. B.  
EXTRAORDINARY IMPROVEMENTS TO OUR SCHEDULE.—Our subscription price is \$2 per annum, and from this date, September 25th, 1870, to every person, whether old or new subscriber, who pays us arrears and a year's subscription in advance, we will send the "Banner," a large thirty-two column Weekly Family Newspaper, containing in every issue, besides advertisements, over twenty columns of choice reading matter. The subscription price of the "Banner" is \$1.50 per annum. The necessary upon our part of always acting upon the basis of advance payment, and our desire to give our readers the most complete and reliable matter as possible, prompts us to the above. A sample copy of the above mentioned paper can be sent free of charge to every person sending their address to J. E. BARNETT, Barnwell, S. C.  
Great air in town about R. F. B.  
To R. F. B.—The land offered for sale by J. L. Phipps, Administrator, has been withdrawn from sale, but will be rented, on the 15th day of October next, the day on which the sale was to have taken place.  
Sept. 1870-ly.  
R. F. B., the Great Female Regulator.  
Attention is directed to the postponement of the Grand Rally to the 9th day of December. The postponement was necessary, as the scarcity of money has operated against the sale of all the tickets. About two hundred tickets remain to be disposed of between now and December. It is thought these can easily be sold in the time mentioned. The chance of a successful rally for 80 is still open.  
R. F. B. corrects all families.  
We tender our thanks to Messrs. J. L. Woodward's Sons, for the most fashionable Hat presented to us on Saturday. The hat from which this was selected we thought as fine and as well as ever brought to this market. It was shown at the same time an especially handsome lot of shoes of many new styles, with which no one could fail to be pleased. Any person wishing to purchase Hats or Shoes, might as well come to see this assortment before making a selection.  
T. F. B. Female Rights.  
We have the special attention of readers to the advertisement of Mr. J. J. Vandiver, Rome, Ga., who has leased of the commodious warehouse near the Railroad depot. He offers them great advantages and facilities in the sale, storage or shipment of cotton. Besides, Mr. V. is well known to many of our citizens as a competent, experienced, prompt and reliable business man.  
Our usual telegraphic war news is omitted this week, because nothing of much importance has transpired. Several items have been occurred around here, in which the French were generally successful. At the latest dates the Russians were about to commence the bombardment of Paris, which was expected. In our next we will give the full dispatches of all news of importance.  
The Fire Company return thanks to Messrs. Hoffman, Staley & Co., 45 South Howard Street, Baltimore, Wholesale Grocery Dealers, for a handsome donation toward the purchase of the Fire Engine. The Company also, thank the house of Capt. Bethune, known among us for many years, for a similar donation. The Capt. is at present in the Disarming and wholesale whisky business, Springfield Tennessee.  
**Calhoun College.**  
To the Subscribers.  
The Trustees in contracting for the building of the college contemplated by the act of the Legislature, have been directed upon your individual subscriptions of stock. The funds are now daily needed to pay the builders, who are pushing forward the building. We therefore, earnestly appeal to all subscribers to come forward promptly, and pay their subscriptions.  
The ladies are doing good work. Let us make them prompt payments.  
B. L. WOODWARD, TREASURER.  
THOS. A. WALKER, JNO. H. CALDWELL, S. T. CUCHE, W. L. BORTHY, W. B. BORTHY.  
Oct. 8, 1870.  
Very Certificates for 1866 and some other descriptions of Conn. Bonds will be taken in payment of subscriptions to this paper until the 1st of November next.

**SELECTIONS.**  
On the 11th day of this month, the State of Pennsylvania, Ohio, Indiana, Iowa and Nebraska hold important elections. All these States elect Congress men, and two or three of them full State tickets. The Republican majorities in these States two years ago were as follows: Pennsylvania, 9,667; Ohio, 17,889; Indiana, 9,611; Iowa, 46,359; Nebraska, 2,401.  
In the year following when the vote was lighter, the Republican majorities were: Pennsylvania, 4,506; Ohio, 7,518; Iowa, 39,145; There was no general election in Indiana or Nebraska in 1869.  
The present Standing of these States in the United States House of Representatives is as follows: Pennsylvania 7 Democrats and 17 Republicans; Ohio, 6 Democrats and 13 Republicans; Indiana 4 Democrats and 7 Republicans; Iowa, a full Republican delegation; Nebraska, 1 Republican.  
But for the negro vote which the 15th Amendment brought into play in the North, the Democrats would undoubtedly have carried some of these States, and largely gained in others. But the negro vote will it is thought go far to counteract Democratic gain. The Democrats are nevertheless sanguine of gaining 7 or eight members of Congress in these States. The Republicans are not disposed to yield this much; but do not count upon more than holding their own. We shall see what we shall see.—  
Col. John H. Caldwell cannot speak at Chulahoma and Arbaconchee as announced, owing to Court here. Judge Walker will be on hand.  
Hon. P. M. Dor, Judge Walker, and our talented friend, Capt. James Crook, addressed a meeting at White Plains on last Saturday. The generous and valiant people of that country are alive, and we venture they will give a good account of themselves in November.  
The sickness of some of the employees, this week, must be our excuse for the delay of one day.  
It is more than probable that we will have a political speech, from one of our lawyers, on Monday.  
Campaign Documents for distribution, from the National Democratic Executive Committee, at this office.  
Come and get some.  
Circuit Court opened on Monday, his Honor, Judge Whitbeck, presiding. The charge to the Grand Jury was able. The following is a list of the Grand Jury: W. H. Ables, J. B. Brown, S. W. Crook, J. P. Grooms, J. L. Green, J. B. Mason, John McCall, J. H. Price, John Price, J. P. Landers, J. S. Evans, H. F. Vinson, J. B. Broughton, B. J. Woodum, J. W. Whitbeck.  
Affairs in Hancock County.  
David Dickson writes at Sparta September 27th, to Messrs. S. D. Head & Son, his letters in Augusta, as follows: The negroes in this section, especially upon my place, are so demoralized they will not work. I do not expect to save much of my cotton, and may get that that is saved burned. The negroes here say that Yankee and Yankee Radicals tell them to organize, kill and burn, to suppress the spirit of the Klan. What the Yankees told them, I know not, but feel the effects of their delusion. Nearly all the negroes on my place are opposed to this delusion. They have something to lose, a few I suspect, because they have nothing, and of their guilt I have some evidence.  
Last Saturday night, an armed force of negroes came upon my plantation and burned the largest gin house I own. It was forty-eight feet square and contained three gins, two screws and a scaffold; the latter was built the same day it was burned. Four negroes had cotton in it, from two to five bales each, of which they carried two-thirds. I had in it about thirty bales in all; about 2,000 bales of cotton seed—I lose between four and five thousand dollars.  
We most earnestly invite the attention of Executors, Administrators and Guardians to the Notice of Judge Woods, below. Farther disregard of it will certainly bring somebody into trouble.  
Notice to Executors, Administrators and Guardians &c.  
I have heretofore given notice in the Jacksonville Republican for Executors, Administrators and Guardians, to come forward and file in my office their accounts and vouchers for a final, partial, or annual settlement, but very few responded to said notice; this is therefore issued, personal notice to them and forwarded the same by Mail, setting a day for filing their accounts, &c., preparatory to making said settlements. I hope all will attend punctually, without any further trouble or cost in the matter.

# THE NATIONAL DEBT.

**The Reduction—What Might Have Been Done.**

The Cincinnati Enquirer makes some strong points about our national finances. The radical organ claims that in the year and a half Grant's Administration they have reduced the principal of the public debt \$169,000,000. We have shown that according to the statements of the financier at the head of the Treasury Department (George S. Boutwell) in Congress, in July, 1868, Andrew Johnson, in the two years and nine months preceding that time, had paid off \$1,066,000,000 of the public debt. Small claims, therefore, has Grant and his friends, admitting their pretensions to be true, to public gratitude. The gratitude must rather be given to President Johnson and his friends.

But we have another point in this connection to make: Had Mr. George H. Pendleton been nominated and elected President in 1868, which ought to have been done, how would the debt now stand under his policy? He would have suppressed the circulation of the National bank notes, and issued greenbacks in their stead. This would, in itself, have saved us \$20,000,000 a year. The \$300,000,000 of bonds, that constitute the basis of the National bank circulation, would have been taken up by an issue of \$300,000,000 of non-interest-bearing greenbacks. This would not have added to our paper circulation a dollar. But, in the meantime, an additional \$200,000,000 of legal-tender notes would have been put out, which would have given us a currency by no means too large in its figure.

There would have been another annual saving of \$18,000,000 in gold on a debt transferred from an interest to a non-interest-bearing basis. Together the whole saving in interest since Grant came into office would have been \$60,000,000. A tax of two per cent—the same that oil or property is taxed—would have been put upon say \$1,500,000,000 of five twenty bonds. In a year and a half it would amount to \$45,000,000 which, added to the interest, would make a loss of \$105,000,000 that we have sustained by the corrupt and mistaken policy of Grant. But this is not all. Grant has paid \$169,000,000 in gold for that which we had a right to buy in at from fifty to seventy cents on a dollar. There has been a needless squandering of the people's money of fully \$70,000,000.

This brings up the charges of Grant's squandering to \$180,000,000; that is, under Mr. Pendleton's system, we should now have paid in the neighborhood of \$350,000,000, instead of \$169,000,000. We would have been no carrier of a loaded debt of \$1,669,000,000, and not \$2,200,000,000, which it is at present. That, in a few years, would have been paid off for \$1,000,000,000 in gold; whereas, now, under the Grant loaded system, it would cost at least \$1,800,000,000 to do so. Both in the present and in the future the country sustained a terrible loss when it adopted Grant and his policy.

## Test-Oaths.

It was a noble saying that Henry A. Wise uttered when he said that he would touch a pen to sign a test oath he would have his right hand cut from the wrist and nailed to a post to point the way to a gallows.

The iniquitous test-oaths of the religious and civil wars of the Dark Ages have been revived by the Republican party in this country, with more mean and degrading features than ever before. It is a relic of the Middle Ages, and a relic of the Middle Ages it remains. Although the war terminated five years and a half ago, they still remain to defile our statute-books and disgrace our people.

Many of the test-oaths in the country cannot, many others will not, take them. The first duty of the Democracy, in attaining power, anywhere, must be to abolish them.

A test-oath, like an income tax, offers a premium to fraud and injury. It makes it pay for a man to deny his acts and falsify his record. It excludes from the privileges of citizenship men of the highest moral character, who have rendered the cause they believed to be right, but know to be unsuccessful. Such men accepted the situation in good faith, and were entitled to an oblivion of the past. The test-oath keeps alive the heart-burnings and jealousies, the hates and revenges of a period which all good citizens would wish to have forever buried in forgetfulness.

Finally, all test-oaths are violative of the spirit and letter of our written Constitution, State and Federal. In obedience to these, we Democrats must wipe them out. For to be a Democrat is to be a respecter, as truly as that to be a Republican is to be a reviver of the Constitution.—New York Democrat.

How THE PEOPLE ARE ROBBED.—There is one fact so practical and easily comprehended, that it ought not to be overlooked, when we come to consider the question of a protective tariff, and it is this: The total value of the whole consumption of iron in this country for the year ending June 30, 1869, was \$785,000,000. The amount imported from foreign countries during the same time was valued at \$35,000,000. The duty upon the imports was an average of 50 percent. From this it would appear that the Government collected about \$17,500,000, and consumers were compelled to pay \$375,000,000 in order that the Government should collect the paltry amount, while the "protected" gentry pocket the immense sum. Could there be a greater robbery? The Government received \$17,500,000, and the manufacturers an extra profit of 50 percent, upon the entire amount manufactured in the country.

## Vincennes (Indiana) Sen.

## You Bet.

We understand, on the best authority, that a staunch old Democrat with plenty of the "needful" has offered the following bets on the election to a well-known Southerner of this place and found no takers.

\$5,000 to \$2,500 that Lindsay beats Smith for Governor. The same that he beats him 10,000 votes. The same that the Democrats carry a majority of the legislature.

These proposals are called to the special attention of Stanton and the Railroad Ring. Let them show how they feel (if they have any) by plunking down some of their "ill-gotten gains" on the "fools and thieves in power."

## Huntsville Independent.

**A Truth that will Stick, and may Sting.**

The following from the resolutions of the Limestone County Convention, applies everywhere with more than usual force at the present crisis of political affairs. We would like to hear any non-registering, luke-warm, milk and water Southern patriot contradict this resolution or justify his own conduct:

**Resolved,** That in this hour of present evil, and still more threatening future, refusal to register and to vote is wholly inexcusable, and he who thus acts is negligent of his duty as a good citizen. He that is not for us, and does not help us, is against us.

Whether they win their marvellous reputation by their cures, or not, but I know they have it to such a degree that it frequently gave me importance to have come from the same source. THE GREAT FLOOD.

Fearful Scenes.

[From the New York Sun, 6th.]

The scene at Harper's Ferry on Saturday was one to be remembered. The Shenandoah river, which flows through the town, was so high that it was almost entirely submerged. The edge of the street was washed by the canal, and between the canal and the river were three islands, separated by ditches. The upper island is called Overton, the next Hall's, and the next the island of Virginus. On the inner side of Shenandoah street is a precipitous ledge, perhaps 500 feet high, which formed a barrier to the flood and hemmed it in, but it went rushing down the street all the more violently and swept away or greatly injured all the buildings on the water side. Among them was the Government stable, with walls immensely thick and strong, which were lifted from their foundation, the brick being thrown about as though they had been sand. Fifteen other buildings, mainly dwellings, were swept away with all their contents, the inmates barely escaping with their lives, and ten were badly damaged.

At the lower end of the village, near the Baltimore and Ohio Railroad, is a short street, running parallel with Shenandoah street, and between it and the river, on which were several stone and brick houses. On Friday evening the water suddenly rose six feet, filling the first floors of these houses and driving the inmates to the upper stories. The Webb family were in the greatest peril, the water constantly rising and the foundations of their house giving way. Mrs. Webb stepped to a window with an infant in her arms and held it up, appealing for its rescue. A young man suggested

A BASKET FERRY, and forthwith a large clothes-basket was procured, a rope drawn through the handles, and one end was thrown to the window of the house. A small rope was tied to each of the basket handles, and the free end of the one held by the man on the bridge and the other by Mr. Webb at the window. The basket was drawn over, the passenger tied in, and then drawn back. In this way seven persons, including two twin babies, were rescued. Three other families, the Williamses and Reeveses and Andersons, who had taken refuge in Mr. Williams' house, a strongly built stone structure, concluded to remain rather than risk the perils of the basket ferry. All night long they waited and watched while the flood raged without, and rose inch by inch, until finally they retreated to the attic.

THE LAST PLACE OF REFUGE.

The house remained firm until morning; then the foundation walls next the canal gave way, then the rear wall fell, but the imprisoned souls still clung to the front. When morning came they were wildly signaling for help, but the distance was so great that no man could throw a rope across. At last, after many trials, a ball, to which a twine string was attached, was thrown to the window of the falling house, and by means of this string a rope was drawn across and a basket ferry rigged up as before, by which fifteen persons were safely brought to land. One chubby little fellow, two years old, was put in the basket without being tied, and was being pulled across when he began to make the most lively efforts to climb up the sides and jump out. He was hauled back to the window and tied, and his little legs bound firmly together, and with these fetters on his sturdy limbs he was taken over the gulf.

A HEROIC WOMAN.

In one of the brick houses on Herr's Island lived the Rev. Dr. Dutton, pastor of the Presbyterian Church, his wife and two colored servants. On Friday night the foundations of his house began to give way, and, stepping out into the hall, he was struck by a falling timber and knocked senseless to the floor. Mrs. Dutton signalled to the house immediately opposite, a strong building, and from the second story a rope was thrown to her. She tried this around one of the servants, and she was drawn across the street to the next house, through the water fifteen feet deep. The rope was returned in the same way, then the heroic wife herself crossed the perilous flood after she had seen all her household safely over. The house proved to be a strong house of refuge, and although the wind blew and the floods came, it fell not. On Saturday they were taken off the island.

EFFORTS OF A YOUNG HUSBAND TO SAVE HIS WIFE.

James Shippe lived with his wife, to whom he had been wedded about five months, on Overton's Island. When the flood swept away his house on Friday night, he stripped himself for a mighty swim, and taking his wife on his back, plunged out into the raging water, hoping to strike a tree or some of the strong houses that had not yielded to the waves. He bravely struggled along, holding to his precious burden, and seizing one object after another, only to find it give way under his grasp.

At last he caught by the water tank on Hall's Island, and at least ten times he endeavored to get hold

of it, but was as often beaten back by the waves that surged around it. His wife entreated him to let her go, and save himself. "You are not prepared to die, my dear husband, and I trust that I am," were her words. He next caught the branches of a floating tree, on which he supported himself for a few minutes, and lifting up his wife's head, which he had been unable to keep above the water, he found that SHE WAS DEAD.

The beloved form which he had borne for five hundred yards, now cold and lifeless, dropped from his grasp and disappeared beneath the yellow waters.

An excited multitude were gathered on Bolivar Heights on Friday evening watching with agonizing interest the fearful scenes. The moonlight was not sufficient to enable them to see distinctly, but they heard the crash of the buildings, and the

CHIEF OF MENTAL AGONY.

of their inmates. Before Shippe's house was swept away cries of terror proved too truly that a human being was hopelessly struggling in the waves. It is now known that this was Samuel Hoff, who resided near Shippe's house. His wife had gone to the mainland, and he preferred swimming ashore to the chance of being carried away with his house, where perhaps the water would have gained still greater force. He was swept away and drowned.

A WHOLE FAMILY DROWNED.

A large brick house of the group owned by Mr. Murphy, but from which he had escaped in time, was next overturned and carried away. An old and very worthy colored man named Jerry Harris had fled to it with his family from his own house, which was much smaller and of course more liable to be destroyed.

When Mrs. Overton's house disappeared Harris was heard to moan piteously and pray, and soon he and his family, with the house in which they had sought refuge, disappeared in the angry waves. There were five of this family—browns—Harris and his wife, daughter and two grandchildren. Next went the remainder of Shippe's house.

Of the people living between Shenandoah City and the mouth of the river

THIRTY-THREE HAVE BEEN LOST, as follows: Jeremiah Bateman, his wife and five children; James Bateman, wife and four children; Adam Bateman, Heaton Myers, wife and three children; Jno. Brady Beckie Harris, colored; Mrs. Overton, daughter and grandchild; Mrs. Scipe, Samuel Huff and Mrs. Eliza Carroll, a daughter of Harry Rusk, colored, and her child. The body of Mr. Lewis, flour merchant, residing six miles above here, has been found. The body of an unknown colored woman was found fast in the roots of a sycamore tree.

SEVENTY MILES ON A RAFT.

On Sunday morning an old and very corpulent negro was picked up from the river at Overton's Ferry. She was sailing down the river on a piece of raft, and was compositely smoking a short pipe. She hails from Page county, some sixty-five miles up the valley, and had a ride of nearly seventy miles in all.

Following is one among a number of letters addressed to us on the same subject, we publish it, together with our reply, for public information.

**Editors Advertiser:** Will you please send me a copy of the ticket to be printed and distributed. Our officers are in doubt as to whether two boxes or only one should be opened—whether the State ticket, member of Board of Education and member of Legislature should be on one ticket, or separate—whether member of Congress goes on same ticket or separate, &c. Will you give me all information necessary, so that there may be no mistake made in the management in this County?

The old law required tickets for State officers to be placed in one box, and tickets for members of Congress in another. We have carefully examined the new election law, and find that it makes no provision for separate boxes; and therefore, conclude that the names of all candidates for State and County offices, and for Congress can be placed on one ticket, and that but one box will be kept in the election place. The tickets have already been printed and distributed to tens of thousands and have been distributed in every nook and corner of the State. We trust that steps will be taken by the Democratic candidates in every County to have tickets prepared at once. Do not wait, on anything or anybody, but get ahead at once and attend to this all important duty. The ticket at the head of our column is in exact shape, and will be the one voted by the Democrats of this County, just as we have printed it. In other Counties of this, the 2d District, the only change to be made will be in the names of candidates for the Legislature, and in other Districts the only changes to make will be in the names of the candidates for Congress, Board of Education, and members of the Legislature. We trust our contemporaries will give this matter prompt and careful attention, and the proper persons in their localities to see that tickets are prepared at once in the form we have indicated.

The following is a correct copy of the State ticket as it now stands, and will be voted, the only change necessary in the other Districts and Counties, being the substitution of the District and County nominees instead of those of this District and County.

**The Death of Gen. Lee.**

FULL PARTICULARS OF HIS LAST ILLNESS—

THE REMOTE AND THE IMMEDIATE CAUSE OF HIS DEATH.

LEXINGTON, VA., VIA STANTON, }  
October 13, 1870. }

This is a day of gloom and sadness here. The telegraph has announced the death of Gen. Robert E. Lee. Since Tuesday noon it had been known that the more favorable symptoms which he exhibited early in the morning had given place to more alarming ones than he had yet shown. Early this morning it was whispered through the community that he was fast sinking, and with beating hearts our people waited the issue.

With the first peal of the tolling bells the news ran through the town, and all classes went together as the word passed from lip to lip. "Gen. Lee is dead."

A moment, and without any concert of action, every store, shop or other place of business was closed. Even freedmen left their work, and all mingled in the common grief.

The exercises at the College and institute were suspended, and every young man seemed to feel he had sustained an irreparable personal bereavement. All of the small schools were closed, and the children wept as they realized that one of their best friends had gone from them.

Your correspondent has taken especial pains to obtain from his physicians (Dr. Barton and Madison) a full and accurate statement of Gen. Lee's illness and death. The remote and real cause of the long continuance of depressing influences incident to the crushing responsibilities incumbent upon him during the last year of the war, the disastrous termination of the struggle for the Union, and so nearly equalled the affliction of his native South since the surrender.

As he saw his little army gradually melt away before the countless hosts opposed to them, and compelled to yield at last to overwhelming numbers and resources; as he witnessed the sufferings of his "poor boys," as he was accustomed to call them, and thought of the condition of their families and of the South; as his mails have been every day swayed flooded with most piteous letters from maimed soldiers or from the widows and orphans of the noble men who followed him, he has borne a calm exterior, and struggled for the good of his State and the South with a heroic surpassing any which he ever displayed on the field of battle. But the very fibres of his great heart have been gradually wearing away until they have at last broken and the vital spark has fled. Both of his eminent physicians concur in the opinion that Gen. Lee has died rather for moral than physical causes; that his physical development was well perfect, and that there was no merely physical reason why he might not have lived for years to come. The immediate cause of his death was, in the opinion of his physicians, "mental and physical fatigue, inducing venous congestion of the brain, which, however, never proceeded as far as apoplexy or paralysis, but gradually caused cerebral exhaustion and death."

On Wednesday, September 28th, he was more than usually busy. After attending chapel service, as he always did, he spent the whole morning attending to various matters connected with the interests of the College. At 4 o'clock P. M., he went to a meeting of the vestry of his

church, over which he presided. Matters of great importance to the interests of the church were under consideration, and the meeting was protracted for three hours. Returning home just in time for tea, he was sitting at the table with his family when he was suddenly attacked and became apparently speechless and incapable of action. The next morning he rallied, and as there was no decisive indications of paralysis or apoplexy, it was hoped that the attack would prove nothing more serious than a temporary nervous prostration. All of the indications seemed favorable to his recovery until that Monday. He spoke but little, and that only in answer to questions concerning his physical condition. But this showed that he had recovered the power of speech. His intellect seemed entirely clear, and he gave most unmistakable evidences that while he lay for the most part in a stupor, to which the medicines given him no doubt largely contributed, he was, when aroused, perfectly conscious. He seemed so much better on Saturday that Dr. Madison playfully said to him: "General, you must make haste and get up from this bed. Traveler is getting lazy, and you must make haste and give him the exercise he needs." The General fixed his eyes steadily upon him and shook his head very emphatically, as if to indicate that he did not expect to ride "Traveler" again.

On Monday he became suddenly worse, and despite the best efforts of his medical skill as the country affords, and the fervent prayers of anxious hearts, he gradually sank until yesterday morning at 9 o'clock, when he breathed his last. The nature of his illness was such that there was no opportunity for protracted conversation with him, and he uttered no word which can be seized on for sensational reports of his last hours. He was in the exercise he needs. He fell with the harness on, and his calm, quiet death is a fitting termination of his noble life. We need no "last words" of Robert E. Lee. His deeds belong to history, his life of devotedness, his noble character, and his firm and living trust in Jesus as his personal Redeemer, give unmistakable evidence that he now wears a crown of life's glory, and has indeed entered upon that "Rest that remaineth for the people of God."

**KUKLUX.**—As the carpet-baggers press in with their campaign documents to convict the Kuklux Rebels of disloyalty, we can only say that there is a case for them near Gordonsville, some 8 miles from Hayneville. The acting Sub-Assistant Deputy Grand Cyclops and merry men are on the rampage there, and Gov. SMITH and his military and cock-eyed inquisition is sadly needed in that neighborhood. For several nights past in this stage of the bloody moon a band of a dozen Kukluxes have been galloping over the plantations of Messrs. Moss, Moxner, and McDuffie with their tails for crappers, their heads under their arms. Armed, too, to the teeth, in accordance with orders from the Den of the Dead, and in fierce pursuit of a man and brother who doubtless votes the carpet-bagger ticket. Night after night have these terrible foes of loyalty careered over the plantations named, seeking with fearful order the life of a loil citizen. They rode up in one of these plantations a night or two ago. A loil man of color hailed them. "The reply was a rush on him with a big Kuklux knife, and a rake at him which ripped open the vestments on his right side. Half a step nearer to him and the Kuklux would have cut him in two. The negro got away from there. The Kuklux exclaimed as he made his stroke, "You'd do one what put Mr. MOSKIEKE after us!" A peace warrant was taken out for these Kuklux last Monday by the disloyal whites living out there, who of course give their own version—in the interest of the mystic Klan—of this startling attempt to intimidate the negroes from voting for the Radical candidate for president in 1868. They say that the affair originated about a negro out who had collaborated with a loil black man for some years. But he refused to marry her, and she got another negro to do it. The irate loil man, thus discarded, has solemnly conspired, with eleven evil-minded loilists to disturb the connubial felicity of the happy pair. They seek the sable benedict with deadly intent. If this rebel version be true, then it's all well enough. The negroes are not to be interrupted in the pursuit of happiness, even if it extends to the shooting of somebody. If so, what becomes of the declaration of independence, the reconstruction acts, and the battle of Bunker Hill. But, if it turns out as every loil man suspects, viz: that it is a Kuklux attempt to intimidate voters, then we want Gov. SMITH, old PATSONS and cockeyed PERKINS to come this way with the military. —Hayneville Ex.

**About Registration.**

In 1867, there was a registration of voters under the Provisional Government of Alabama, preparatory to the election on the adoption of the State Constitution. That registration applied to that election, only, and does not hold good now. Subsequently, in 1868, there was a registration of voters under an Act of the State Legislature, and that registration is still in effect. Persons who registered then (in 1868) are entitled to vote at the coming election, without registering again. But no one are entitled to vote who shall not at the time of offering to vote, have registered since 1867. This of course includes all who have become of age previous to the day of election.

**THE RETURNING OFFICER A REGISTRAR.**

An Act of Legislature approved March 3d 1870, provides as follows:

Sec. 2. Be it further enacted, That it shall be the duty of the returning officer of each election precinct, to attend, on the day of election, at some place convenient, but not nearer than one hundred feet to the polls, and as a special registrar, and in the manner as now provided by law for registration before the probate judge, to receive the names of all persons who shall apply for registration, and who for any cause shall have failed or neglected to register with the probate judge, and such returning officer shall return with the poll lists and ballot boxes, the names of all persons so registered by him to the probate judge, who shall add the same to the list of registered voters in his office.
